

ENERGY

PELLETS

DP Nutrition has designed a range of feeds to meet your horse's specific nutritional requirements irrespective of its activity, environment or stage of physiological development. Each feed has been formulated with a balanced energy, protein, fibre, fat, mineral and vitamin content to cover your horse's needs.

CHARACTERISTICS

The formula of DP Energy has been specially designed in order to meet the nutritional needs of sports horses and ponies without hay supplementation. Its high C.A.B. (cation-anion balance) limits muscle fatigue and facilitates recovery. Daily intake of this feed, owing to its wide range of cellulose and protein sources formulated with lysine, will ensure healthy digestive function and maintain muscle mass, while its vitamin, trace element and mineral content is a guarantee of vitality, proper metabolism and strong bones for sports horses and ponies.
