

PROTEINE

PELLETS

DP Nutrition has designed a range of feeds to meet your horse's specific nutritional requirements irrespective of its activity, environment or stage of physiological development. Each feed has been formulated with a balanced energy, protein, fibre, fat, mineral and vitamin content to cover your horse's needs.

CHARACTERISTICS

The formula of DP Protéine has been specially designed in order to meet the nutritional needs of horses and ponies fed with cereals and hay. Daily intake of this feed, owing to its wide range of cellulose and protein sources formulated with lysine, will ensure healthy digestive function and maintain muscle mass, while its vitamin, trace element and mineral content is a guarantee of vitality, proper metabolism and strong bones, meeting the nutritional requirements of all horses and ponies.

INGREDIENT ANALYSIS (% GROSS KG)		ADDITIVES PER KG		TRACE ELEMENTS	NUTRITIONAL VALUES	
Crude protein	20,5 %	vit A	30000 u.i	manganese	150 mg	EFU : 0,8 EDNM : 170
Crude fat	2,5 %	vit D3	4500 u.i	copper	75 mg	
Crude ash	11,5 %	vit E	600 u.i	iron	270 mg	
Moisture content	12 %	vit B1	36 mg	zinc	225 mg	
Crude cellulose	11,5 %	vit B2	12 mg	iodine	2,4 mg	
Calcium	24 g	vit B5	30 mg	sélénium	0,9 mg	
Phosphorus	7,5 g	vit B6	12 mg	cobalt	1,35 mg	
Lysine	0,95 %	vit PP	60 mg			
Méthionine + Cystine	0,72 %	Folic acid	15 mg			
		Biotin	1,5 mg			
		vit K3	6 mg			
		vit B12	0,08 mg			
		Choline	600 mg			

INSTRUCTIONS FOR USE*

Daily ration (divided into 2 or preferably 3 feeds)

WORK	CEREAL MIX	HORSES (KG)		
	(KG)	400	500	600
LIGHT	1,7	0,4	1	1,4
NORMAL	2,7	0,4	1	1,4
INTENSIVE	3,7	0,4	1	1,4

*Based on 5 kg of hay for horses daily, and a mix comprising 2/3 rolled barley and 1/3 whole oats

Please contact our technical department if you require any other feed ration programmes tailored to your stud farm conditions.

*Mean recommended amounts, to be adjusted according to the quality and quantity of available forage.
Freely available clean water.*
